**Testimonial**

I am amazed at the response I've been getting from the ads in the Lake County Shopping Guide. I received 10-15 calls without any special discount offers the first 6 weeks the paper was out. I've gotten at least 12 jobs from the last ad I ran. This paper works for me. *Very affordable rates.*

To solve a Sudoku puzzle, place a number into each box so that each row across, each column down, and each small square within the larger diagram (there are 9 of these) will contain every number from 1 through 9

### Hard Puzzle

In other words, no number will appear more than once in any row, column, or smaller square.

Working with the numbers already given as a guide, complete each diagram with the missing numbers that will lead to the correct solution.
