The History of Labor Day

Labor Day in the United States is a national holiday observed on the first Monday of September, and it's a day to honor the contributions of American workers and their achievements in the labor movement.

The holiday's roots lie in the late 19th century when labor activists sought to recognize the economic and social achievements of workers.

While many associate it with the end of summer and long weekend festivities, its primary purpose is to acknowledge the dedication and impact of the American workforce.

TESTIMONIAL

I have been in sales since 1980. I've been using the NORTH BAY SHOPPING GUIDE for about 5 years now. I have acquired many customers & some longtime friends through my advertising in the Shopping Guide. I appreciate the wonderful color & ad design Maria does at no extra charge. I'm very pleased & encourage any business to be included in one of her next issues. I give this publication an excellent rating! For any small business the rates are very affordable, this is something we all need!

To solve a Sudoku puzzle, place a number into each box so that each row across, each column down, and each small square within the larger diagram (there are 9 of these) will contain every number from 1 through 9.

In other words, no number will appear more than once in any row, column, or smaller square. Working with the numbers already given as a guide, complete each diagram with the missing numbers that will lead to the correct solution.

One More Testimonial!

I started advertising in the North Bay Shopping Guide January 2016. Our first ad was with a 5% off coupon. I wanted to see how successful this type of ad would be in a quarterly publication. We’ve had *GREAT* response. Maria designed our ad & made any changes I requested. I will continue to advertise in the future.

Todd Anderson, Manager.

Testimonial

I am amazed at the response I’ve been getting from the ads in the North Bay Shopping Guide. I received 10-15 calls without any special discount offers the first 6 weeks the paper was out. I’ve gotten at least 12 jobs from the last ad I ran. This paper works for me. *Very affordable rates.*
